EXPERIENCE

FullStack Developer

Dec 2023 – Present

TechVastra

📍 Remote

- As a founding member of the company, I play a pivotal role in the development of our **B2B app**. With a primary focus on **Frontend development**, I've taken on the responsibility of creating a seamless and user-friendly interface.
- Utilized **React Native** for frontend development and contributed to backend development with **MongoDB** and **Express**.

Frontend Developer Intern

May 2023 – Dec 2023

Thinkgestalt.tech

📍 Remote

- Developed and implemented **multiple website** pages using **React.js** and **Next.js**.
- Developed frontend logic, implemented key functionalities to improve user experience on the website.
- Built visually appealing **Android apps** using **React Native** and **Ionic** Framework..

PROJECTS

Stitch Success B2B App (Android & iOS)

- * 🌐 **Play Store**
- * Developed a mobile app using **React Native** for tailors to manage their businesses, focusing on designing the user interface and overseeing the app's launch on platforms such as Google Play and Apple App Store.
- * Implemented key features including **Google SignIn**, **Audio Recording**, **Image Selection**, Force update, and form management to enhance user experience and contributed to backend development by creating APIs if required
- * Solely managed the frontend development and deployment of the app to **Play Store** and App Store.

Real-Time Chat Application

- * 🌐 **Source Code** 🌐 **Live Demo**
- * Developed a real-time chat application from scratch using **Next.js**, **Tailwind CSS** and **Firebase**.

Finance Dashboard

- * 🌐 **Source Code** 🌐 **Live Demo**
- * Developed a dynamic finance dashboard using **React.js**, **TypeScript**, **Material-UI** and **Recharts** offering a responsive and interactive user interface for visualizing and analyzing financial data.
