XII (CBSE)

Percentage: 70%

April 2019 – March 2020

📍 Kalanaur, Haryana

EXPERIENCE

Frontend Developer Intern

Thinkgestalt.tech

June 2023 – Present

📍 Remote

- Developed and implemented **multiple website** pages using HTML, CSS, JavaScript, and **React.js**, resulting in improved user experience and engagement.
- Developed frontend logic, implemented key functionalities to improve user experience on the website.
- Built visually appealing **Android apps** using **React Native** and **Ionic** Framework..

PROJECTS

Real-Time Chat Application

* 🐙 **Source Code** 🌐 **Live Demo**

- * Developed a real-time chat application from scratch using **Next.js** and **Tailwind CSS**.
- * It allows users to engage in real-time conversations and send text messages, images, as well as documents .
- * Integrated **Firebase** for user authentication and data management, ensuring robust security and data persistence.

Movie App

* 🐙 **Source Code** 🌐 **Live Demo**

- * This web application is built using **React.js**, **SCSS** and connects effortlessly to an API, offering an ever-changing collection of highly praised movies.
- * It features an engaging detail page that enables users to conveniently explore movie information.
- * The application provides a seamless interface for accessing critically acclaimed films through its integration with an **external API**.

Finance Dashboard

* 🐙 **Source Code** 🌐 **Live Demo**

- * Developed a dynamic finance dashboard using **React.js** and **TypeScript**, offering a responsive and interactive user interface for visualizing and analyzing financial data.
- * Integrated **Material-UI** to create a polished and user-friendly design, ensuring a seamless and intuitive experience for users navigating the financial dashboard.
- * Utilized the **Recharts** library to generate customizable charts and graphs, enabling users to gain valuable insights into financial trends and metrics.
